

26th January 2010
Skyguide premises
Geneva, Switzerland

The CATS project is pleased to invite you to its second Workshop

You are cordially invited to the second CATS Workshop that will be held by SkySoft-ATM in Geneva, on 26th of January 2010, hosted by the CATS project team and the European Commission;

The main objectives of the workshop are to demonstrate the progress made by the CATS project toward the goal of achieving punctuality at destination, by assessing a possible practical implementation of the Business Trajectory, namely the Contract of Objectives (CoO), on a joint simulation platform developed by SkySoft ATM, mixing four controllers positions and two flight simulators positions.

After an introduction of the project, the CATS Consortium will present the Concept of Operations, as well the platform demonstration. During the afternoon the activities carried out to demonstrate the feasibility, acceptability and benefits of the concept will be discussed. Finally we will look at the work remaining to be done for the last year of the project.

Convinced that it will be a real opportunity for beneficial exchanges, the CATS Consortium is looking forward to seeing you in Geneva.

More information on the CATS project could be found on www.cats-fp6.aero or www.eurocontrol.int/eec/cats.

For logistical reasons, advance registration is necessary. Please confirm your participation before 30th of December sending an email to sandrine.guibert@eurocontrol.int.
