Top stories Press Events

**12 SEP 2011**  
**More space for heavyweights?**  
Safety experts confirm that current separation levels for heavy aircraft would be sufficient for the new Boeing 747-800, which is 15% heavier than similar aircraft.

**12 SEP 2011**  
**August issue of the Network Operations Report now available**  
According to our latest monthly network operations report, traffic in Europe grew by 1.5% compared to August 2010. The forecast traffic growth for 2011 is still around 3.5% increase.

**06 SEP 2011**  
**Bo Redeborn addresses the First CAISO ATM/Aircraft Data Communications Policy Conference**  
Discover how new air traffic management (ATM) systems will integrate aircraft in flight for the first time, and how digital air-to-ground data communications are

**05 SEP 2011**  
**ATFCM cherry-picking in Vienna: a concrete benefit for aircraft operators**  
Local cherry-picking methods can reduce arrival delays and could resolve short-term congestion at other European airports with similar traffic patterns.

**Welcome to 'OneSky Online'**

**What is 'OneSky Online'?**

OneSky Online is the name of EUROCONTROL's Extranet, the part of our website where content can be accessed only by EUROCONTROL staff and other authorised users - this is usually the case for information that is too detailed or complex for the general public.

By means of an Extranet clearly separated from the public website, we want to provide our stakeholders with the ability to work with us online and access more of our expertise without running the risk of detracting from the polished public image which we wish to convey on the Internet.

This online service therefore needs to be made secure, which means that access to OneSky Online has to be authorised by EUROCONTROL on an individual basis.

In order to use EUROCONTROL online secure services you need to access the OneSky Online portal using the Login ID and Password that you have chosen during self-registration. After this login process, the portal will give you the opportunity to access the service(s) for which you have been granted the access right and to apply for access to other online secure pages and services.

**Welcome**

**WIFI at Haren**

We are pleased to announce that visitors to EUROCONTROL in Haren (Belgium) can now take advantage of a wireless hotspot service covering the lobby and all ground floor conference rooms in the Da Vinci building.

You can use your OneSky Online Login ID and password to access this service.

**Wireless Services**  
available in HQ Conference Centre

From this page, the EUROCONTROL Extranet portal, and using the various links shown in the left column you can do the following:

- edit your account (your name, company, contact details and password) so that further online communications with EUROCONTROL can be handled smoothly;
- access any of the 'online services' for which you have already been granted the access right, following a previous request of yours or at the Agency's initiative (these authorised services are all listed in the left column under the 'Online Services' header);
- subscribe to other EUROCONTROL online services (please use the link in the left column under the 'User Account Administration' header). As soon as your subscription to a new online service is authorised you will be able to see it added to your own list of previously authorised services under the 'Online Services' header.

Amongst the various EUROCONTROL online services that are provided through OneSky Online, there is one in particular that aims to improve and facilitate **interactive working** with you in a virtual team. It is called **OneSkyTeams**.
