ASM BOOKLET
Conditional Routes (CDRs) Catalogue

Edition Number	:	154
Edition Date	:	21/03/2024
Status	:	Released Issue
Intended for	:	General Public

This page intentionally left blank

Notes:

- The 'ASM Booklet' contains information on conditional routes as collected from national AIPs and will be updated every AIRAC cycle. **The 'ASM Booklet' is for information purposes only.**
- The file is made available on a 'as is' basis. As such, the 'ASM Booklet' does not allow information extraction for processing purposes.
- Although great care is taken in the collection of Aeronautical Data, complete accuracy cannot be guaranteed. Errors brought to the attention of EUROCONTROL will be corrected.
- While our goal is to keep the information provided under the 'ASM Booklet' timely and accurate, complete timeliness, accuracy and integrity cannot be guaranteed. **EUROCONTROL will therefore not assume any liability for the document contents or the consequences of its use, i.e. for any errors or omissions in the content, or for inaccurate transmission or misdirection.**
- Time expressed is in UTC. During the summer period, one hour is to be subtracted from the published UTC time. Nevertheless, some countries publish the time in brackets during the summer period.
- If no additional remarks provided, CDR(s) and/or segment(s) are to be considered bidirectional.
- Text highlighted in blue shows changes compared to previous edition.
- Text highlighted in green shows new CDR(s) and/or new segment(s) compared to previous edition.
- Highlighted in red are CDR(s) and/or segment(s) being removed from previous edition.
- Additionally, at the very end of the document is the list of national holidays relevant for the CDR classification.
- Upon request, the data contained in this document is available as .xls format file.
