## CACD Sector ID Table

The table below describes the allocation of the generic MUAC sectors, depicted in the MUAC FRA Index Chart, to the three AUAs defined in Eurocontrol's CACD database i.e. EDYYBUTA, EDYYDUTA and EDYYHUTA.

Furthermore, the table indicates the relations between AUA Name, Sector Name and the corresponding ID in Eurocontrol's CACD database.

The aggregation of the three AUAs or the aggregation of the eleven sectors represents the Area of Responsibility of Maastricht UAC which is labeled by EDYYUTA in CACD.
