

APPEL D'OFFRES-i - VIA « I-SOURCING »

No. REF. 19-110512-A

EUROCONTROL is inviting tenders relating to the development of Business Intelligence, Machine Learning and Safety Tools Dashboards.

The European Organisation for the Safety of Air Navigation (EUROCONTROL) was founded in 1960 by six States. It now has 41 Member States. EUROCONTROL's mission is to harmonise and integrate air navigation services in Europe, aiming at the creation of a uniform air traffic management (ATM) system for civil and military Users, in order to achieve the safe, secure, orderly, expeditious and economic flow of traffic throughout Europe, while minimising adverse environmental impact.

EUROCONTROL Provides Safety Management Tools such as eTOKAI, RAT, ASMT, APF etc. to more than 60 ANSPs, worldwide. The numbers of users is also constantly growing. The data collected through such tools need to be analysed in ways consistent with the safety objectives, considering the vast volumes and the risk of missing essential items. Given this amount of data, the dynamic of air traffic, the unequalled safety record as well as the diminishing returns of traditional techniques, it is considered that simply using regular statistical methods with tools such as MS Excel is no longer satisfactory. This requires modern and thorough techniques, such as machine learning and business intelligence. This tasking contract concerns the development of such Business Intelligence, Machine Learning and Safety Tools Dashboards.

Who should tender: Commercial entities that have proven experience and resources to develop deploy and support the tools mentioned above.

If this Call for Tenders should interest you, please read the important information below:

Tender closing date: 30 September 2019 at 15:00 (CET)

Point of Contact:

If you wish to receive the call for tenders please see the "important notice" below and if you have any other related questions, please contact:

Mr. John CARROLL

EUROC B

- (ii) If you are not yet a EUROCONTROL supplier, please follow the 4-step process described on the following link:

<https://www.eurocontrol.int/portal/supplier-portal>

- (iii) EUROCONTROL accepts no responsibility whatsoever for the completeness, accuracy and/or timeliness of the transmission of the electronic documents (nor for the electronic documents themselves).

- (iv) Submission of tenders shall **be made electronically** and shall be exclusively made in strict accordance with the instructions given in the "NOTICE CONCERNING THE PRESENTATION OF TENDERS".

- (v) You may:

- a) print out the documents;
- b) forward the documents further on a strictly need to know basis (always fully acknowledging the source, i.e. EUROCONTROL), and
- c) use print-outs of the electronic i-call for tenders documents for the submission of tenders (especially Form i-AF3/2CFT-ET).

- (vi) You may not:

- a) Modify, edit and/or change the electronic documents other than to submit the information required and to sign/stamp the document.
- b) transmit such documents to any third person who has no need to know them;
- c) post such documents on any private or public website;
- d) alter the originating source (EUROCONTROL) and or copyright signs etc., and
- e) transmit the documents without indication of the source.

- (vii) EUROCONTROL reserves the right not to send you the tender documentation, if your company is considered as incapable of submitting an offer to the i-call for tenders (size of the project, complexity etc.).

An environmental notice:

With a view to reduce the exponential growth of paper consumption, we would invite you only to print out electronic documents received and/or request paper copies of the price enquiry documentation if you are actually considering to submit a tender.
