

INFORMATION CIRCULAR

Effective 1 November 2019 (Ref. GM 2019/02)

ROUTE CHARGES COLLECTED BY EUROCONTROL ON BEHALF OF MOROCCO

1. The EUROCONTROL Organisation is entrusted on behalf of Morocco with the collection of route charges in respect of flights performed in the Casablanca Flight Information Region (FIR). Route charges are established in accordance with recommendations of the International Civil Aviation Organisation (ICAO).
2. Internal verifications carried out by the Office National des Aéroports (ONDA) of Morocco revealed that a number of flights performed in the Moroccan airspace between 2015 and 2018 and controlled by ONDA had not been billed.

At the request of ONDA and in accordance with the Moroccan legislation, EUROCONTROL will issue additional bills in November 2019 for en route air navigation services provided in respect of these flights.

3. For any information relating to these bills, airspace users may contact the CRCO.
