### **TECHNICAL CAPACITY CRITERIA**

	2	Certified supervisors shall be at least B-VCA certified (basic Safety) – written confirmation in technical offer

### TECHNICAL ASSESSMENT CRITERIA

Criteria		Subject
	1	Complete List of subcontractors submitted.
	2	Quality of the general plan of action + quality of the respective approach as submitted by the tenderer.
	3	Proposed lead time project ( <i>the shorter the proposed realistic elapsed time planning, the higher the score</i> )
	4	Sufficient relevant project experience submitted ( <i>the Tenderer shall provide evidence of at least 5 years of work experience with similar projects and at least 5 similar reference projects</i> )
	5	General appearance of the offer
	6	Confirmation of support guarantee ( <i>availability of spares or equivalent spare parts for a minimum of 10 years from the date of Final Acceptance</i> )

The final technical scores and the Prices are assessed in accordance with the formula below to establish the economically most advantageous offer.

For the Technical tender, a weighting of 70% is applied, for the Financial tender, a weighting of 30%

The following table explains the formula to calculate the final score:

$$\text{Final score} = \frac{\text{Tender Technical Score} \times 0.7 \times 100}{\text{Score of the Best Technical Tender}} + \frac{\text{Lowest Contract Price} \times 0.3 \times 100}{\text{Contract Price of the Tender}}$$

The Tender having the highest Final score in application of the above formula, is considered the economically most advantageous Tender for contract award, provided that no factors or risks to EUROCONTROL would justify a different recommendation (for example, failure to achieve successful contract negotiation).
