

EXPLORE FLIGHT

WE'RE WITH YOU WHEN YOU FLY

UAM Vision: Sky for All

Parimal Kopardekar, Director, NASA Aeronautics Research Institute

February 4, 2021

Big Picture

One mile of surface transportation takes you one mile, whereas one mile of aviation land can take you **anywhere**.

End-to-End Air Transportation

- Increased use of electric propulsion and air vehicles of all sizes are likely to impact future transportation options and society
- Currently, transportation is one of the key factors for location of businesses and housing
- In future, aviation can get closer to businesses and housing
