

European Commission 2021 Artificial Intelligence Package

Lucilla Sioli, Director of Artificial Intelligence and Digital Industry, DG CONNECT, European Commission

ECAC/Eurocontrol - AI event - Session II 'Designing a strategy for AI in the aviation sector'

24 November 2021

Overview of the presentation

Introduction: excellence and trust in AI

2021 European Commission AI Package

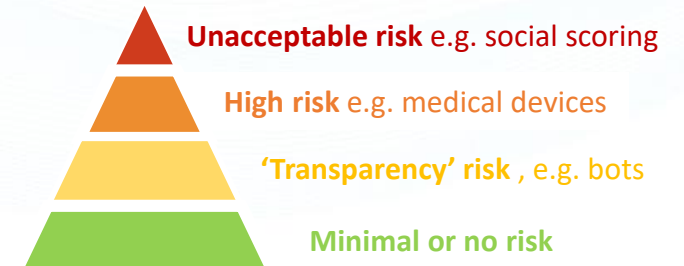

○ Proposal for an Artificial Intelligence Act

1. Logic: AI as a product, **product safety legislation logic**
2. Rational: **AI specific risks to safety and fundamental rights**
3. Main principles: A **risk-based approach**/ main requirements, complementarity
4. Implications for the aviation sector: Reg. 300/2008 on civil aviation security and Reg. 2018/1139 on civil aviation, **indirect application of requirements for high-risk AI systems.**

○ Coordinated Plan on AI

5. Overview

Risk based approach

Requirements for high-risk AI systems
