

European Defence Agency: A hub for civil-military cooperation to reinforce military aviation as a Security provider for Europe

A DIGITAL EUROPEAN SKY FOR ALL

Military Aviation

Giving the EU the benefit of range, reactivity, speed and efficiency to act more quickly and decisively and to secure EU citizens.

- » Access to the airspace for manned and unmanned air systems
- » Confidentiality of mission critical information
- » Resilient and robust data sharing network and CNS services
- » Coordination with civilian aviation authorities
- » Interoperability

Civil Aviation

Giving the EU the benefit of a safe, green, competitive and modernised EU aviation sector and Air Traffic Management system.

- » Increase capacity
- » Improve cost-efficiency
- » Adapt to variations in traffic
- » Reduce aviation's CO₂ footprint
- » Integrate new entrants
