

All-Causes Delay to Air Transport in Europe

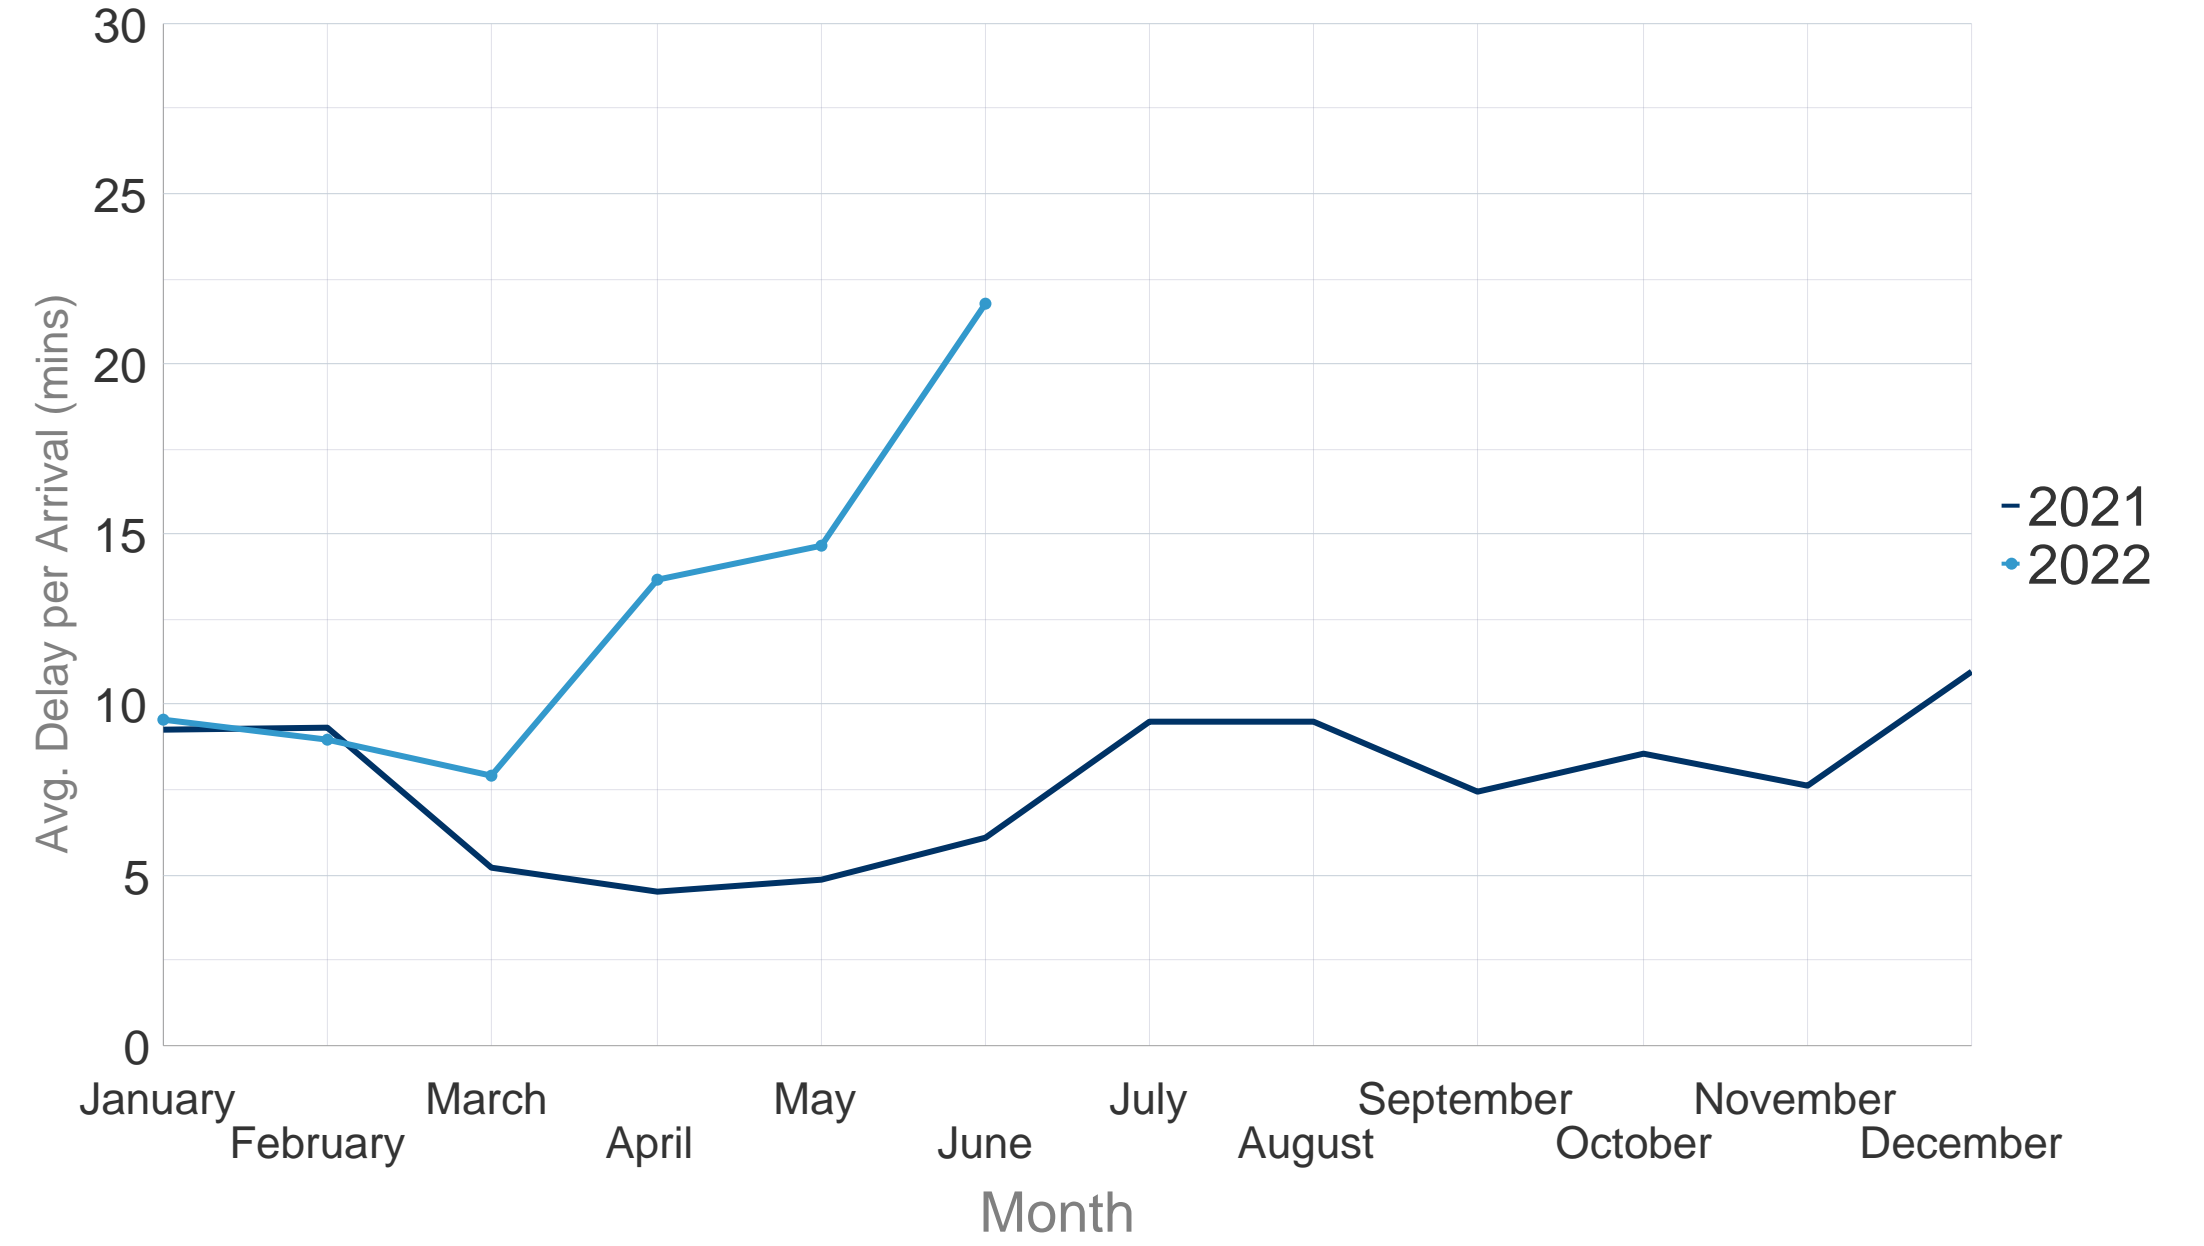

June 2022

Traffic in June 2022 was at 86% of June 2019 levels. Airspace closures reflecting the EU Sanctions Regulation for the Russian Federation and Belarus generated high delays in several adjacent ACCs throughout the month. Regarding airports, Amsterdam Schiphol was the busiest followed by IGA Istanbul, Paris Charles de Gaulle, Frankfurt Main and London Heathrow. Ryanair, easyJet, Turkish Airlines and Lufthansa were the busiest airlines in terms of flights. French ATC industrial action from 25 to 27 June and weather delays (thunderstorms and convective activities) in Karlsruhe UAC throughout the month generated ATFM delay.

Average Delay per Flight on Departure (mins) - June 2022

Average Delay per Flight on Arrival (mins) - June 2022

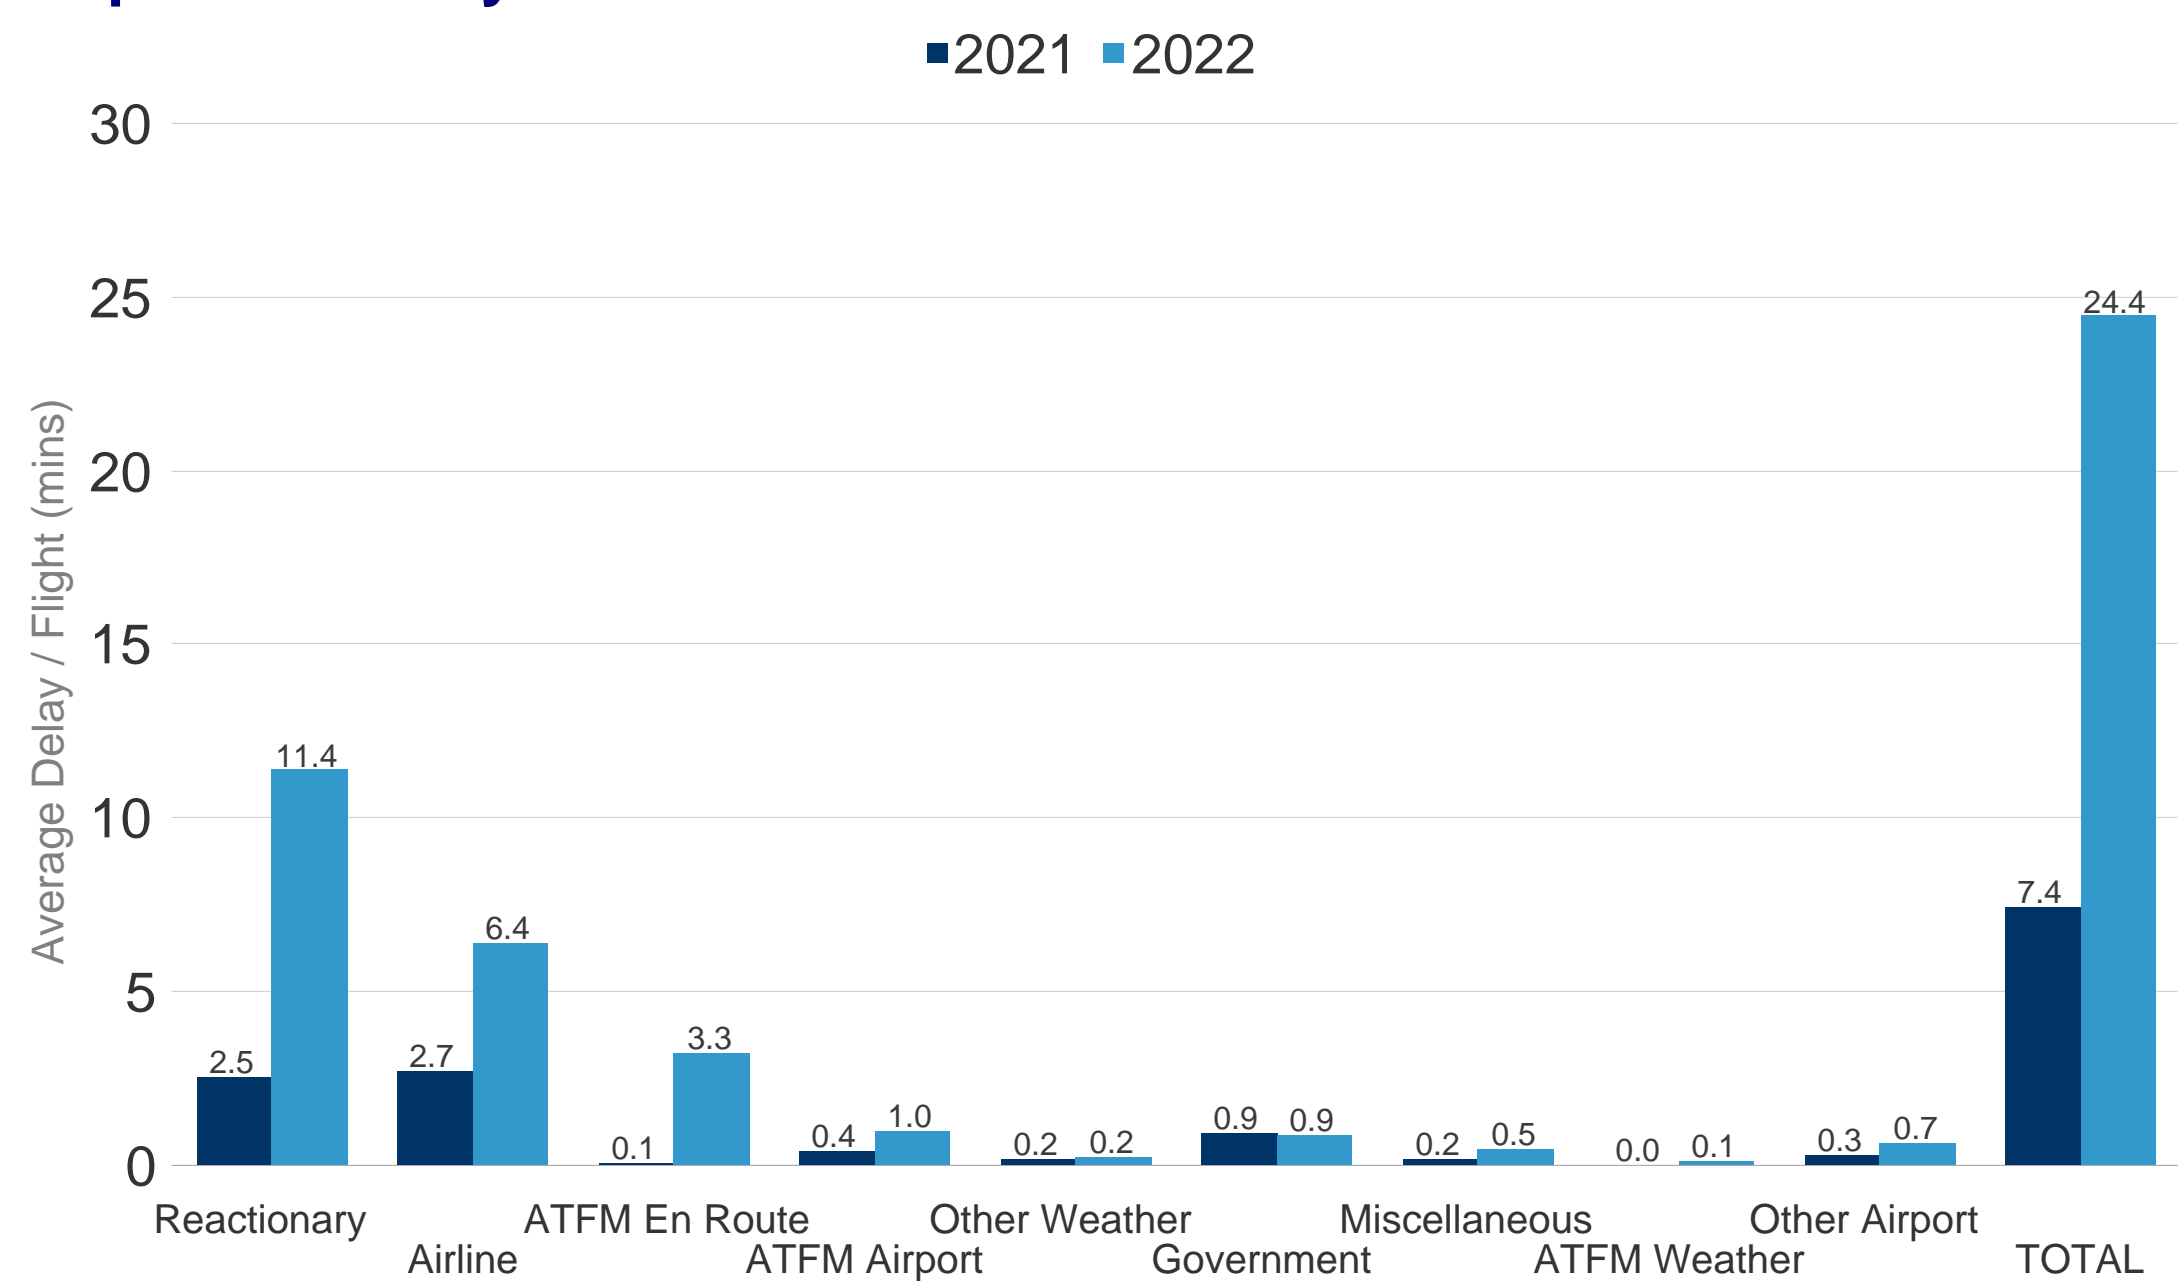

In June 2022 the average delay per flight on departure was 24.4 minutes per flight. This was **an increase** of 16.9 minutes per flight when compared to June 2021 where the average delay per flight was 7.4 minutes.

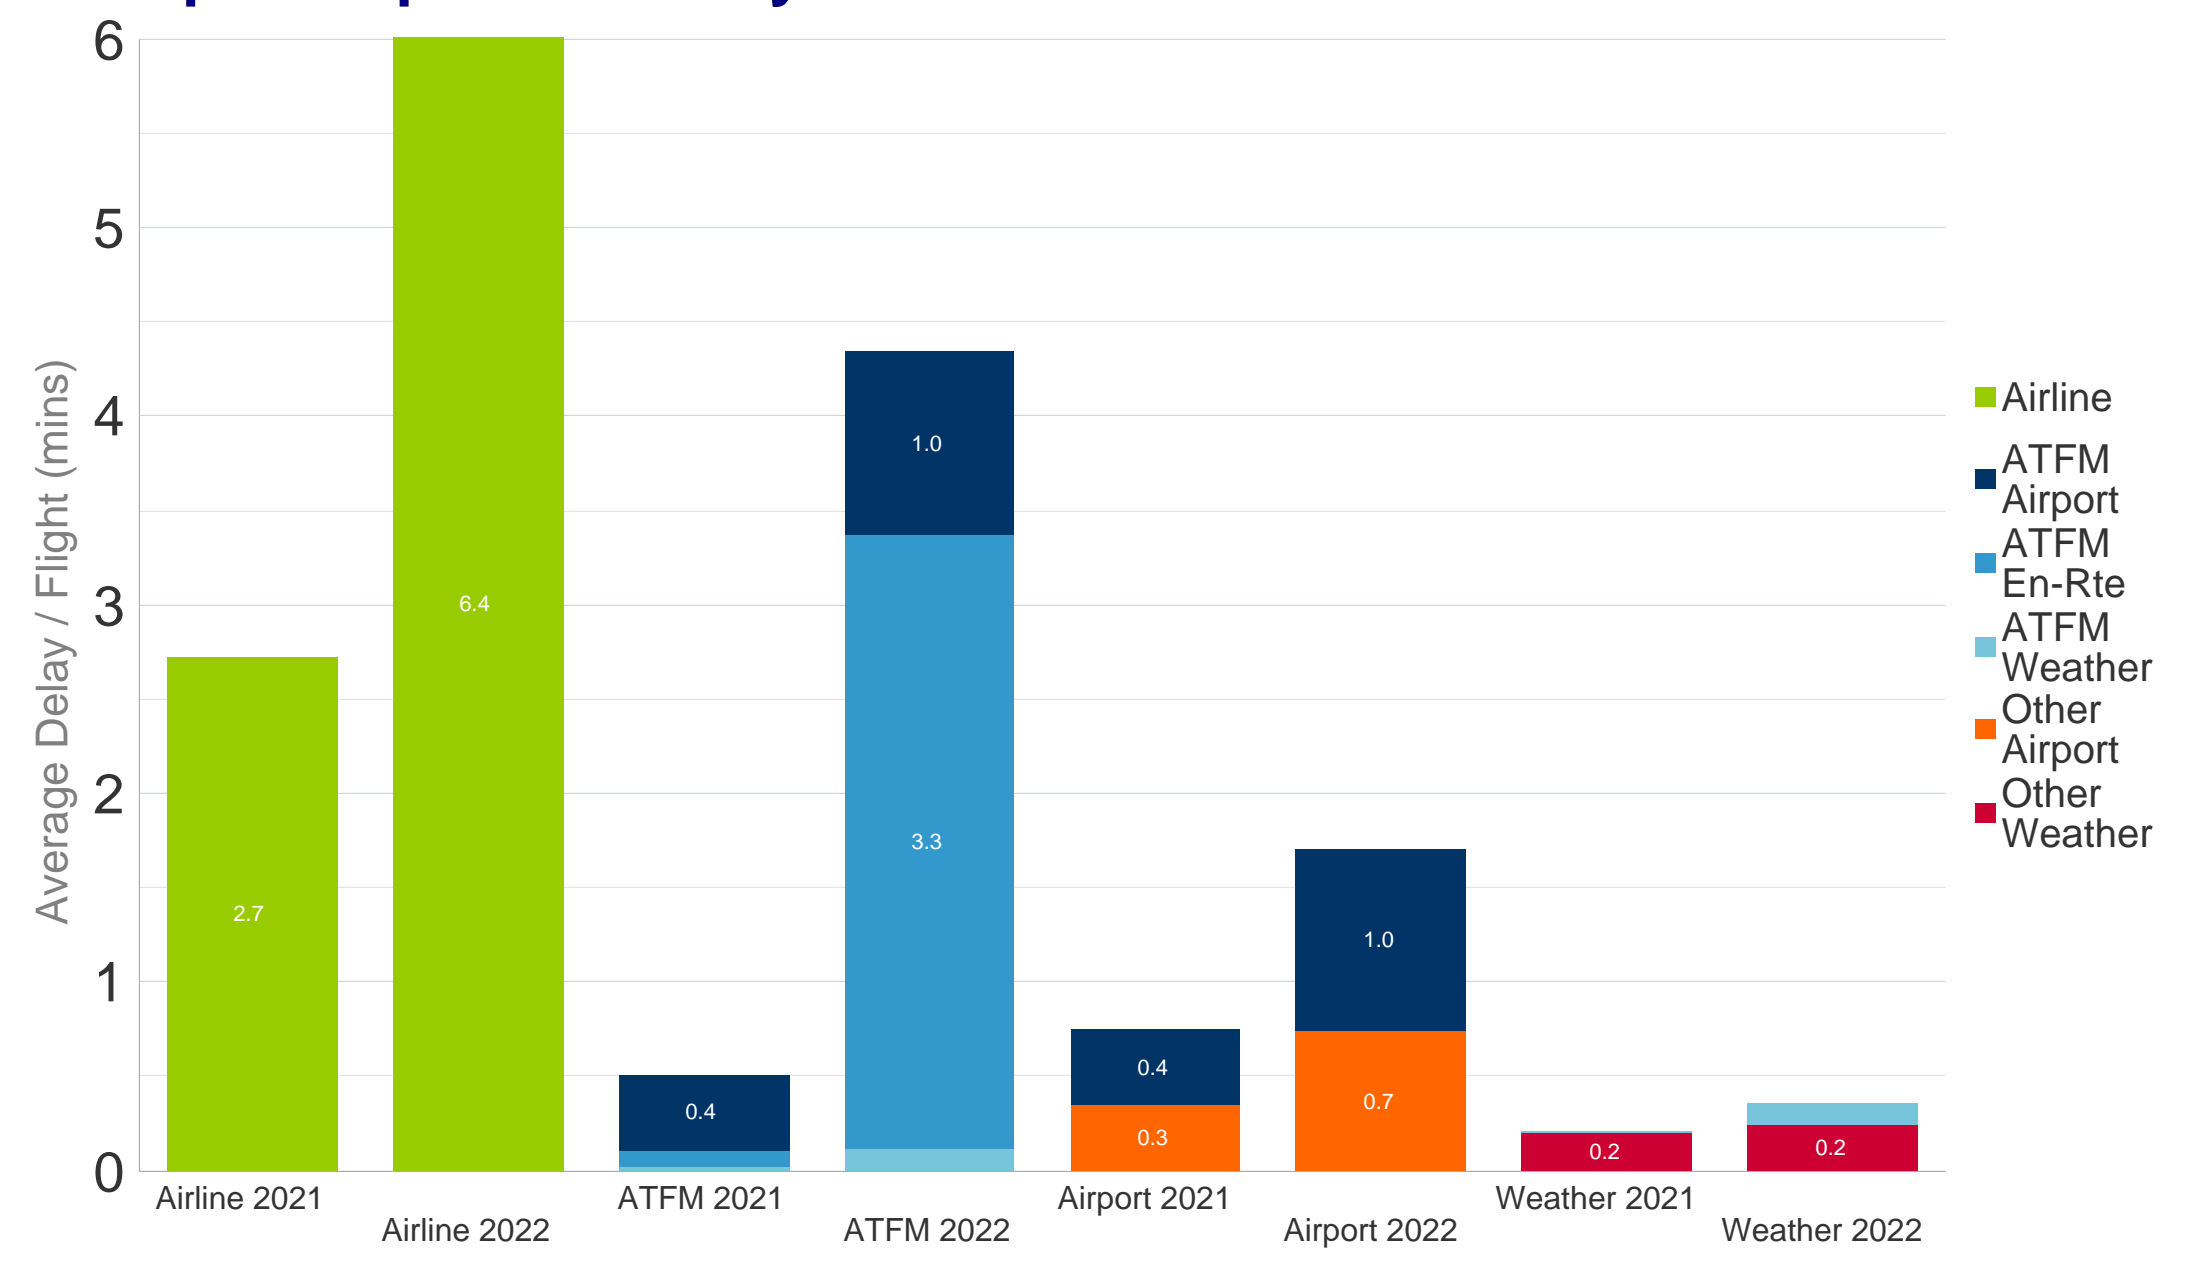

In June 2022 the average delay per flight on arrival was 21.8 minutes per flight. This was **an increase** of 15.7 minutes per flight when compared to June 2021 where the average delay per flight was 6.1 minutes.

Further analysis of the delay causes shows that reactionary delay contributed 11.4 minutes to the average delay per flight in June 2022.
