# Workstream 12.2 –Prioritisation on CP1 AF6

## Scenario 1

- No EUROCONTROLATS B2 engagement

## Scenario 2 ADS-C/EPP DEPLOYMENT

### CP1 Scope and Timeline

- CPDLCv1
- ADS-Cv1 for EP
- ATN/OSI
- Logon issues
- B1/B2 compatibility

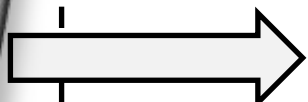

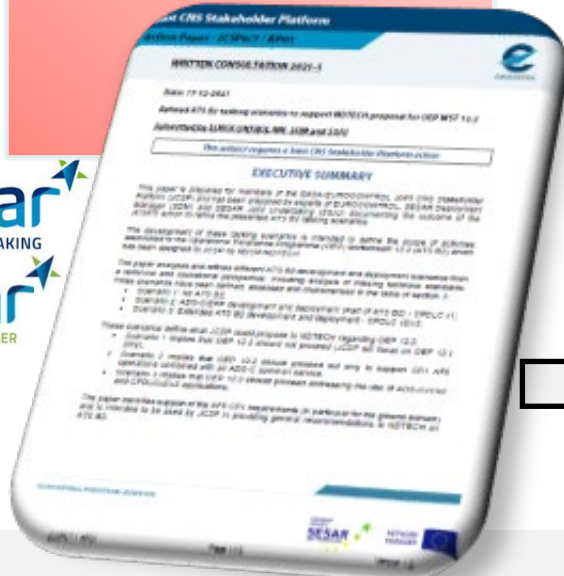

CP1 minimum requirements

ADS-C Common Service (SESAR PJ31 recommendation, PJ38 demonstration)

## Scenario 3 EXTENDED ATS B2 DEPLOYMENT

- CPDLC v2/v3
- ADS-C v1/v2
- Extend below FL285
- Extended operational use cases
- ATN/IPS
- Ground accommodation of mixed fleet
- ...

Includes ADS-C Common Service (SESAR PJ31 recommendation, PJ38 demonstration)

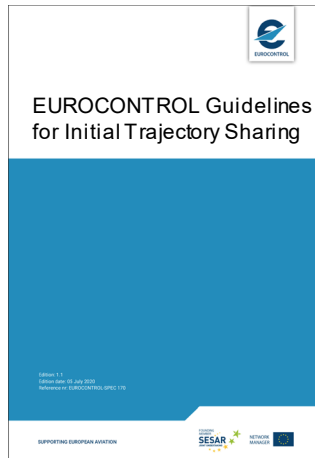

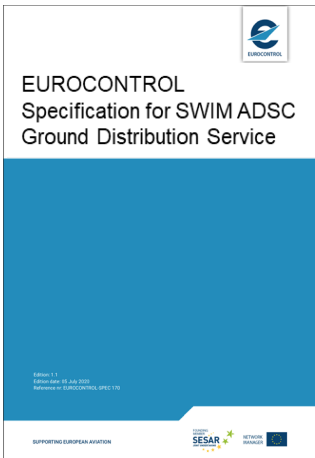

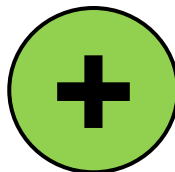

# Objective: Complementary Standards for CP1 AF6

**Builds on PJ38 deliverables, addresses gaps for SWIM Service Standardisation**

**CONOPS was a pre-requisite for this specification (builds on PJ31 validation and PJ38 deliverables & demonstrations)**

**Covers Logon and ADS-C Common Services**

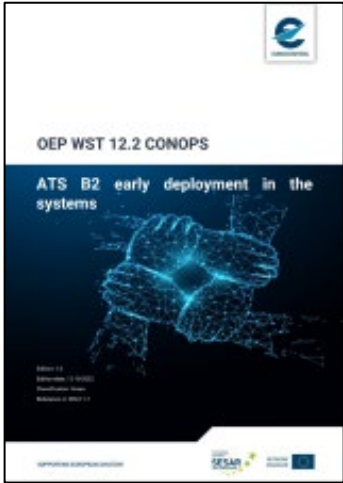

**Will be based on existing MUAC operations, ongoing demonstrations and deployment**

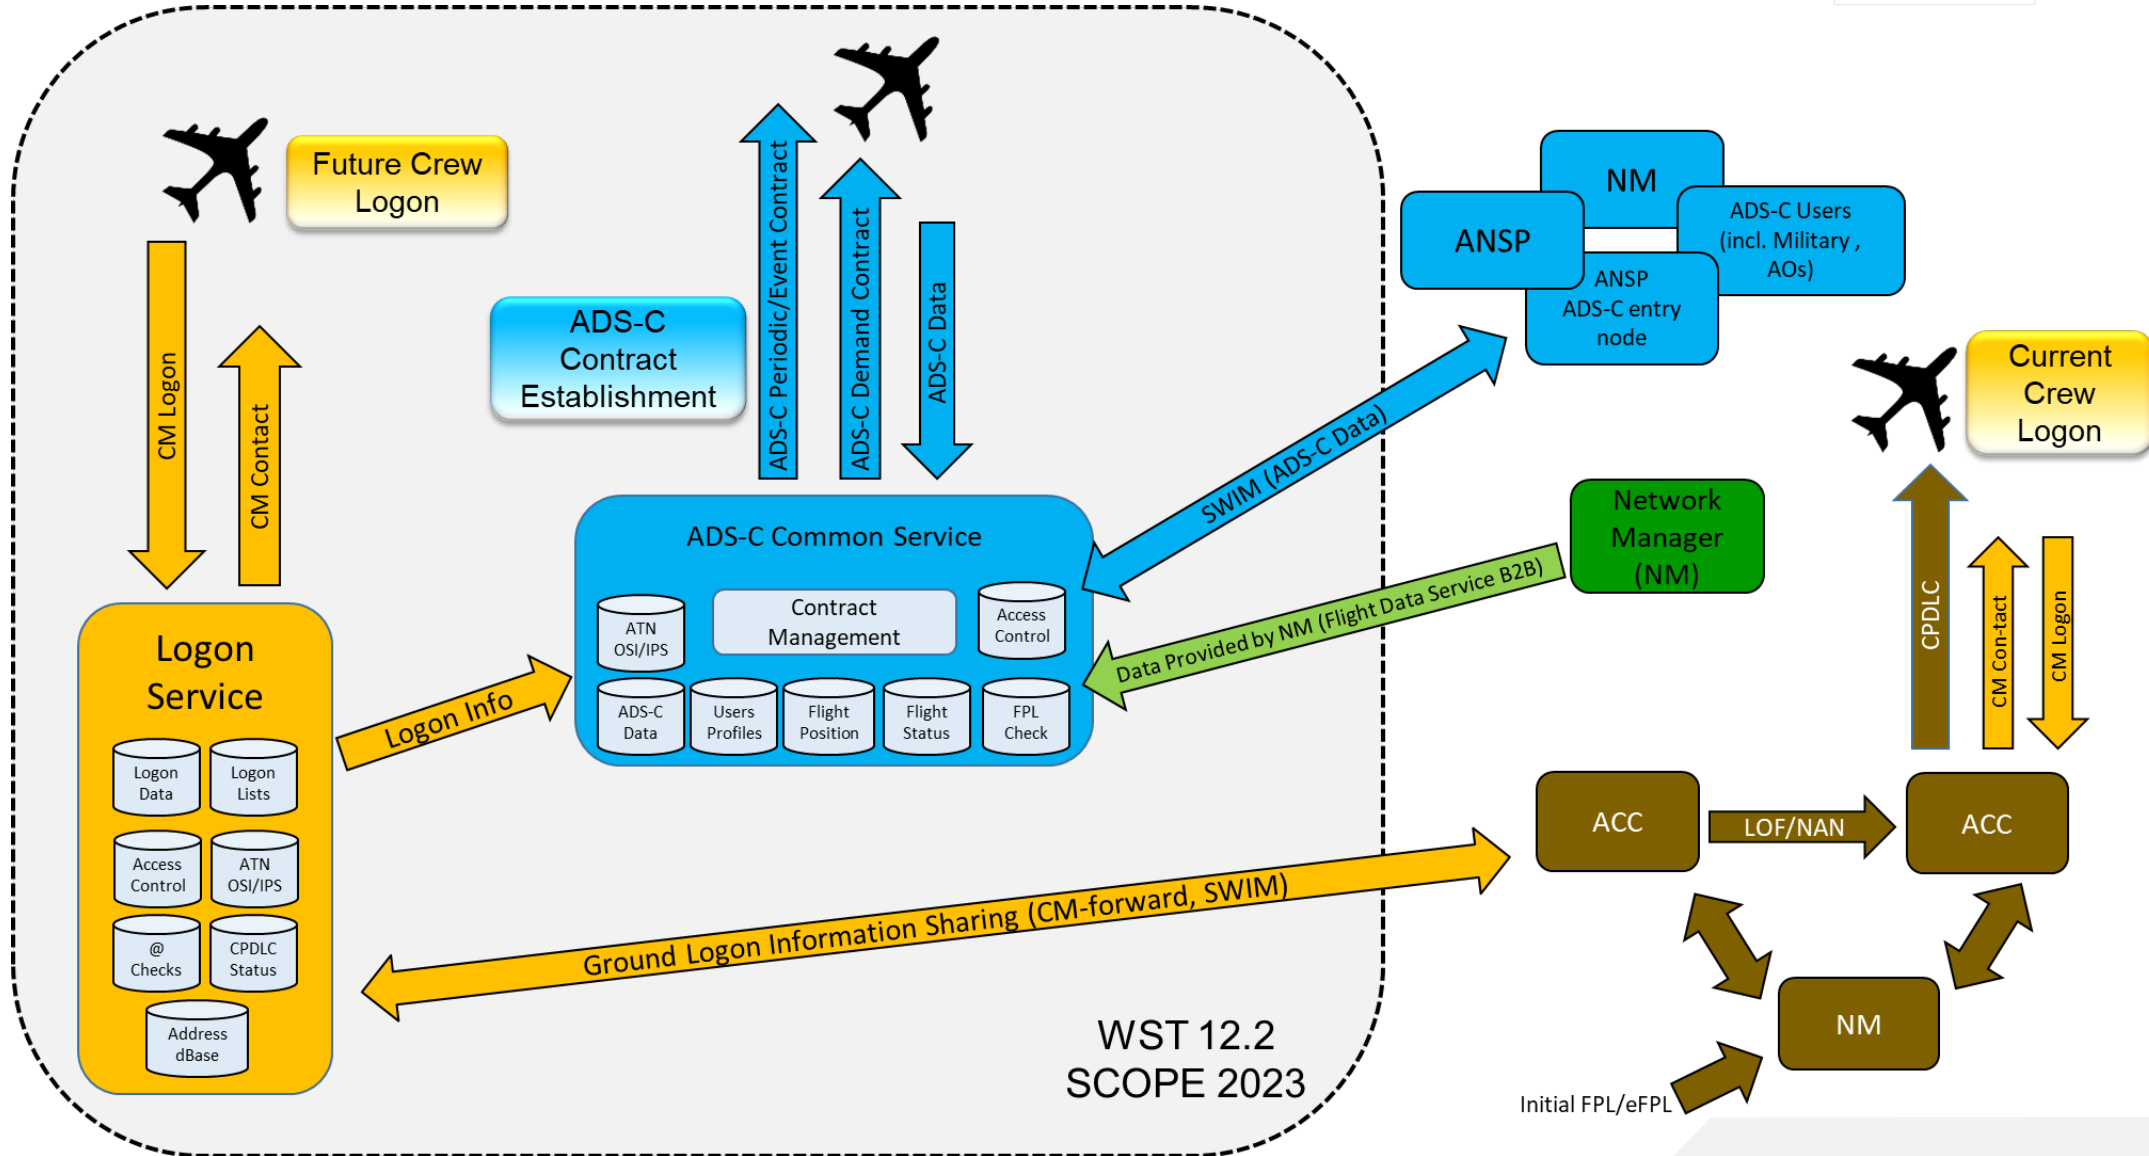

**Available and referenced by SESAR Deployment Programme for Initial Trajectory Sharing**

**To be delivered by end 2023 after public consultation**
