

## CORRIGENDUM

### to EUROCONTROL Specification for Data Link Common Services for the Aeronautical Telecommunication Network (ATN), EUROCONTROL-SPEC-192, Edition 1.0 dated 11 December 2023

1. On page 32, section 3.5.1, LS-FCT-0020, clarify that note 4 relates to bullet 6.

*for:*

*"4) airInitiatedApplications are omitted."*

*read:*

*"4) airInitiatedApplications are omitted when invoking a CM-logon response."*

2. On page 84, section 4.6.5, ACS-DAT-0440, correct bullet 6 to indicate that the first received ADS message can also be an ADS report (as part of the ADS-C contract confirmation):

*for:*

*"(...) the first received ADS Message per contract type during contract initiation (either ADSPositiveAcknowledgement, ADSNonCompliance, ADSReject);"*

*read:*

*"(...) the first received ADS Message per contract type during contract initiation (either ADSPositiveAcknowledgement, ADSReport, ADSNonCompliance, or ADSReject);"*

3. On page 74, section 4.5.8.1, ACS-FCT-0720, does not consider the deactivation or failure of the NM B2B data procedure specified in section 4.5.7. Correct the note of section 4.5.8.3 for such cases:

*for:*

*"Note: No specific requirements are defined for this edition."*

*read:*

*"Note: Errors relating to the flight verification procedure (non-active service or B2B interface failure) can be characterised by a specific outcome such as 'unable'."*

4. On page 76, section 4.5.9.3, ACS-FCT-0870, incorrectly refers to the flight plan verification 'status' instead of flight plan verification 'outcome'.

*for:*

*"[ACS-FCT-0870] The status information shall encompass (...) flight plan verification status (...)"*

*read:*

*"[ACS-FCT-0870] The status information shall encompass (...) flight plan verification outcome (...)"*

**Raúl Medina**  
Director General

A handwritten signature in blue ink, appearing to be 'Raúl Medina'.
