

i- CALL FOR TENDERS

<u>Call for Tenders No.:</u>	ECTL_SRC_250014
<u>Title:</u>	Assistance in Airspace Organisation

General:

EUROCONTROL* is an intergovernmental organisation with 42 Member and 2 Comprehensive Agreement States. We are committed to building, together with our partners, a Single European Sky that will deliver the air traffic management (ATM) performance required for the twenty-first century and beyond.

Technical subject matter:

The NM Functions Implementing Rule, in defining the tasks of the NM, stipulates that “to fulfil its tasks, the NM shall ensure the availability, operations and sharing of tools, processes and consistent data to support cooperative decision-making process at network level.” The execution of the European Route Network Design Function, the implementation of the Free Route Airspace Network Strategic Project and the evolution of the Network Planning Tools are consolidated in the Network Operations Plan. This consolidation requires the consistency check of all the network data and the preparation and validation of logical data flows. Through this contract, the selected tenderer will be required to assess the consistency and the connectivity of the data in order to perform realistic network performance evaluations and to ensure the support to the regular review of the effectiveness of the planned or implemented airspace structures.

Main selection and assessment criteria:
