i- CALL FOR TENDERS

Current opportunity

Procedure No.	ECTL_SRC_260086
Title:	DHMI Turkey RTS Operational Support Preparation and Conduct

General:

The contract objective is to provide experienced ATC operational expertise in support to the EUROCONTROL project team. The support will be used to ensure that the simulated tower environments, airport layouts, traffic flows, push-back procedures, taxiway routings and controller working positions are sufficiently realistic and operationally consistent for DHMI air traffic controllers to validate the intended operating concepts.

The required support contributes to EUROCONTROL's core role of providing operational validation and air traffic management expertise to Member States. It will help EUROCONTROL prepare, run and exploit tower real-time simulations in a controlled way, with usable scenarios, consistent operational data, efficient conduct of the experiments and clear operational conclusions.

The Contractor shall work in close coordination with the EUROCONTROL Project Manager, the Operational Leader, the HF Validation Expert, the technical experts responsible for the eDEP EIH Tower platform and the relevant DHMI Tower core teams. EUROCONTROL will make available relevant assistance, guidelines and examples of previous RTS preparation and reporting material when appropriate.

Technical subject matter:

The Contractor shall provide ATC operational expertise for tower RTS activities, with a specific focus on airport ground movements, runway operations, arrival and departure flows, ATCO working methods and the operational realism of the eDEP EIH tower simulation environment.

The Contractor shall support the following generic activities for each RTS work package:

- consolidation of the RTS operational specifications and scenario assumptions;
- preparation of airport operational data in the Airport Tool, including relevant taxiways, push-backs, stands/gates and traffic flows;
- operational testing of RTS scenarios on the eDEP Tower platform, in interaction with EUROCONTROL technical experts;

- identification, description and follow-up of operational or technical issues affecting scenario realism, platform behaviour or validation objectives;
- interaction with the DHMI Tower core teams and, where applicable, DHMI ATCOs to present, review and consolidate the RTS scenarios;
- support to the RTS acceptance sessions and experimentation weeks under the authority of the Operational Leader and HF Validation Expert;
- support to daily/final debriefings, including helping ATCO participants understand the simulation environment and the intended use of the scenarios;
- post-experimentation support to data analysis, PowerBI/dashboard interpretation, operational conclusions and executive summary material.

Main assessment criteria:

TECHNICAL ASSESSMENT CRITERIA
The Consultant shall have **minimum 3 years of experience** with Real Time Simulation operational preparation, conduct, final report review.
The Consultant shall have **minimum 3 years of experience** with the Tower Eurocontrol simulator called eDEP
Minimum of 3 years of experience in air traffic management concepts (airspace, traffic, ATC procedures), including experience with Tower ATC.
English or French level equivalent **at least to B2** as defined in the Common European Framework of Reference (CEFR), i.e.: • ability to read/write professional documents in French or English. • ability to perform a discussion in English or French language.

The economically most advantageous offer will be established in accordance with the following Award criteria:

For the Technical tender, a weighting of 50% is applied, for the Financial tender, a weighting of 50%.

Tender closing date:

04 September 2026 at 15:00 Brussels time

If this Call for Tenders should interest you, please read the important information below:

IMPORTANT NOTICE

The full i-Call for Tenders documentation is in electronic format (.pdf).
If you wish to obtain the i-Call for Tenders documentation, please read and follow carefully the instructions below:

1. If you are already registered in the EUROCONTROL Supplier Portal, you can search for this Call for Tenders, and its relevant documentation, in the "*View Active Negotiations*" section of the Supplier Portal.
2. If you are not yet registered as a EUROCONTROL supplier, please follow the process described on the following link: https://www.eurocontrol.int/portal/new-supplier-portal.
3. EUROCONTROL accepts no responsibility whatsoever for the completeness, accuracy and/or timeliness of the transmission of the electronic documents (nor for the electronic documents themselves).
4. Submission of tenders shall be made electronically and shall be exclusively made in strict accordance with the instructions given in the tendering documentation.
5. You may:
   a) print out the documents;
   b) forward the documents further on a strictly need to know basis (always fully acknowledging the source, i.e. EUROCONTROL), and
   c) use printouts of the electronic i-Call for Tenders documents for the submission of tenders (especially the Price Offer Form ref: I-TSF-E).
6. You may not:
   a) modify, edit and/or change the electronic documents other than to submit the required info and to sign/stamp where required;
   b) transmit such documents to any third person who has no need to know them;
   c) post such documents on any private or public website;
   d) alter the originating source (EUROCONTROL) and or copyright signs etc., and
   e) transmit the documents without indication of the source.

An environmental notice:
With a view to reduce the exponential growth of paper consumption, we would invite you only to print out electronic documents received and/or request paper copies of the price enquiry documentation if you are actually considering to submit a tender.
